

Lukas Herajt

WEB DEVELOPER

About

I am Lukas but people call me Lucky. I am serving and it hasn't been fulfilling for me so I decided to challenge myself to learn how to make websites with HTML, CSS and JavaScript. The more I learn the more I enjoy the process. It became my hobby and now I want to do it for living. In my spare time I also enjoy being in the nature , playing with kids or kicking people in their legs(A.K.A. kickboxing).
